

**3rd Colombian Meeting on High Energy Physics (COMHEP3)
3 - 7 Dec 2018, Cali - Colombia**

First Bulletin

The goal of the third Colombian Meeting on High Energy Physics is to bring together young and senior scientists, theorists and experimentalists, to discuss recent progress in particle physics, cosmology and related areas.

The program of the meeting will address a broad range of topics, including Standard Model and beyond, neutrino physics, hadron and flavor physics, dark matter, cosmology, cosmic rays and future experiments, which reflect the main existing expertise in Colombia.

The meeting will take place in the Universidad Santiago de Cali, campus Pampalinda, Santiago de Cali, Colombia.

For more information, registration and talk submission, please visit the meeting website:

<https://indico.cern.ch/e/comhep3>

There will be a \$50 USD registration fee for senior scientists and PhD students and \$30 USD for undergraduate and master's students. Some financial support might be available upon request for a limited number of students presenting a parallel talk or a poster.

Important dates:

- Registration deadline: October 31, 2018
- Deadline for abstract submission: September 30, 2018
- Deadline for requesting financial support: September 30, 2018

Please feel free to contact us for any additional information. We are looking forward to hearing from you at your convenience.
