

**4th Colombian Meeting on High Energy Physics (COMHEP4)  
December 2 - 6, 2019, Barranquilla - Colombia**

**First Bulletin**

The goal of the fourth Colombian Meeting on High Energy Physics is to bring together young and senior scientists, theorists and experimentalists, to discuss recent progress in particle physics, cosmology and related areas.

The program of the meeting will address a broad range of topics, including Standard Model and beyond, neutrino physics, hadron and flavor physics, dark matter, cosmology, cosmic rays and future experiments, which reflect the main existing expertise in Colombia.

The meeting will take place in the campus of the Universidad del Atlántico, in Barranquilla, Colombia.

For more information, registration and talk submission, please visit the meeting website:

<https://indico.cern.ch/e/comhep4>

Financial support will be available to a limited number of students presenting a parallel talk or a poster.

Important dates:

- Registration deadline: November 1st, 2019
- Abstract submission deadline: September 15th, 2019
- Deadline to request financial support: September 15th, 2019

Please feel free to contact us for any additional information. We are looking forward to hearing from you at your convenience.
