Cuántico

Cuántico is a cultural manager on the meeting point of art and science and it promotes collaborations between these two spheres of knowledge. It is a bridge between artistic and scientific creation and high level scientific institutions around the globe.

GENEVA

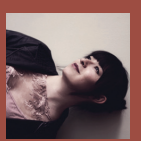

art@CMS | ORIGIN

art@CMS is an educational and dissemination initiative of the CMS experiment at the Large Hadron Collider located at the European Organization for Nuclear Research CERN. ORIGIN is a high level scientific network for collaboration (CMS, ATLAS, ALICE, LHCb, LIGO, VIRGO, JICEcube) around particle physics, cosmology, gravitational waves and astrophysics.

Natalia Rivera_

Mutante.Lab

Open laboratory for research, creation and dissemination of art and science in Bogotá. Since 2012, Mutante.Lab has organized diverse communities, events and workshops with the aim to promote access to the knowledge in these fields and, through that, critical thinking and empathy.
