

Session Program

23-25 Jul 2023

**PhD School on
QCD in Extreme Conditions**

PhD School on QCD in Extreme Conditions

New developments in Relativistic Hydrodynamics for Heavy-Ion Collisions

Department of Physics (University of Coimbra), Room E.10A

Sunday 23 July

11:00

New developments in Relativistic Hydrodynamics for Heavy-Ion Collisions: Part I

Session | **Location:** Department of Physics (University of Coimbra), Room E.10A | **Convener:** Wojciech Florkowski

11:00-12:30

New developments in Relativistic Hydrodynamics for Heavy-Ion Collisions - Part I

Speaker

Wojciech Florkowski

12:30

Monday 24 July

08:30

New developments in Relativistic Hydrodynamics for Heavy-Ion Collisions: Part II

Session | **Location:** Department of Physics (University of Coimbra), Room E.10A | **Convener:** Wojciech Florkowski

08:30–10:00

New developments in Relativistic Hydrodynamics for Heavy-Ion Collisions - Part II

Speaker

Wojciech Florkowski

10:00

Tuesday 25 July

16:00

New developments in Relativistic Hydrodynamics for Heavy-Ion Collisions: Part III

Session | **Location:** Department of Physics (University of Coimbra), Room E.10A | **Convener:** Wojciech Florkowski

16:00-17:30

New developments in Relativistic Hydrodynamics for Heavy-Ion Collisions - Part III

Speaker

Wojciech Florkowski

17:30
