

Session Program

14 July 2023

MAP-Fis Research Conference

Quantum Information (Chair: Ernesto Galvão, INL)

University of Minho, University of Aveiro, University of Porto

Friday 14 July

11:10

Quantum Information (Chair: Ernesto Galvão, INL)

Session | Location: University of Minho, University of Aveiro, University of Porto

11:10-11:30 Generation of qutrit Bell states using only linear optics

Speaker
Anita CAMILLINI

11:30-11:50 Many-particle systems with imperfect distinguishability

Speaker
Carlos Fernandes

11:50-12:10 Noise-assisted digital quantum simulation of open systems

Speaker
Jose DIOGO COSTA GUIMARÃES

12:10-12:30 The Pauli-based model of quantum computation beyond qubits

Speaker
Filipa Peres

12:30-12:50 Coherence and contextuality from relational information

Speaker
Rafael Wagner

12:50-13:10
Fabrication of Bi2Se3 Photodetectors for Photo Galvanic Applications Using Optical Lithography

Speaker
James Caleb

13:10
