

Clone - Texas Symposium on Relativistic Astrophysics 2015

Thursday 16 April 2015 - Tuesday 21 April 2015

International Conference Centre Geneva

Scientific Programme

Plenary Talks

Numerical relativity

Exact solutions in Astrophysics

Modifications of gravity

Cosmic microwave background

Dark energy

Dark matter

Cosmic magnetic fields

Gravitational lensing

Gravitational waves

Neutrinos

Disk and jets

Activity at the galactic centre

Gamma-ray bursts

X-ray binaries and pulsars

Particle accelerators

VHE gamma-rays and cosmic-rays

Pulsar timing arrays

Black-holes

Future challenges and experiments
