

CHIPP Roadmap Workshop 2020

27/28 August 2020, Hotel Victoria Kandersteg

Desired Outcome of the Workshop

The purpose of this meeting is to significantly advance the roadmap process as part of our self-governance

1. Identify all/check for the necessary pieces 
-  2. Find the relative weight and balance of those pieces
-  3. Make a concise document that fulfils the requirements

Draft ready for the October CHIPP Board !

Prior to writing, we need to build consensus – best done in person!

- Pillar 1 – Anna
- Pillar 2 – Michele
- Pillar 3 – Ruth
- Theory – Gino
- Outreach and Education – Katharina

Agenda item 5: Editorial Team Roadmap 2020

Editorial Team:

- Anna Syrla (high and low energy frontier pillar 1)
- Gino Isidori (theory)
- Günther Dissertori (tech transfer)
- Katharina Müller (outreach and education)
- Michele Weber (neutrino pillar 2)
- Mike Seidel / Lenny Rivkin (accelerator)
- Ruth Durrer (astroparticle pillar 3)
- Rainer Wallny (general structure, main editor, organizational lead)
- Angela Benelli (secretary)

Agenda item 5: CHIPP Roadmap Updates

- We have emphasized inclusiveness in writing the roadmap
 - ❑ The roadmap workshop provided the ideal platform to give input
- We may now be faced with a lot of editorial work in merging/condensing/consolidating/streamlining
 - ❑ Some of this can and should be achieved at workshop, but focus on vision for the future
 - ❑ This can best be done by a smaller group of editors => editorial board
 - ❑ We assume their “editorial power” as part of their mandate
- A new draft would be circulated then have to be circulated prior to the 15 October board
- NB: Printing and graphics design possible at PSI ?

Agenda item 5: Roadmap Writing Time Table

Milestones	Date
Rough page size, boxes, images known if to be printed by SCNAT	30.09.2020
Close to final text to SCNAT	30.11.2020
